Packaging information

Length: 680 mm | Width: 358 mm | Height: 1010 mm

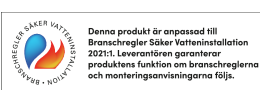

Weight: 34.5 kg

Weight: 1 pc

Assembling & Care

Floor mounting with four stainless steel screws and plastic caps. Or floor mounting with glue. The rounded cistern and the small outer dimensions makes it suitable for corner installations. Please refer to the installation manual. Fittings included. Clean the porcelain often to prevent dirt and limescale deposits forming. If your regular detergent does not give the desired result, try citric acid or tartaric acid. Wipe/rub the damp surface dry and rinse thoroughly. Remove limescale deposits with household vinegar. Abrasive cleaning agents must not be used. Never use abrasive detergents. They damage the glaze over time. And never use strongly alkaline, lye-based blockage removers that can damage the porcelain surface and harm the environment. For WC bowls stored in unheated areas, the cistern should be emptied and wiped dry. Pour about 4 dl of antifreeze in the water trap. Use an environmentally-friendly product.
